

1.RESEARCH AND KNOWLEDGE MANAGEMENT

HYS regularly reviews knowledge requirements of the sector, assesses the knowledge gaps, undertakes research studies for bridging these gaps and distils learning for wider dissemination. The centre also documents good practices and disseminates the knowledge through developing Newsletters, organizing workshops/seminars and Discussion Forums etc.

Women empowerment and poverty alleviation need a coordinated approach from all stakeholders and a conducive policy environment. It is equally important that the existing policies are operationalised for benefits of the poor. The Hind Yuva Shakti proactively engages and facilitates all stakeholders to collaborate and take up joint initiatives for financial inclusion, Institution Building, livelihoods and Poverty Alleviation.
